# Fiscal 2017 Budgetary Ceiling

## ALA Fiscal Year 2017 Budgetary Ceiling

Background and purpose: As part of ALA's annual budget process, a budgetary ceiling is calculated and presented to the Budget Analysis and Review Committee (BARC) for approval. The budgetary ceiling document captures and presents all available resources, or sources of funds, that can be expended during the fiscal year. Sources include a starting amount represented by any accumulated Net Asset Balances built up over previous fiscal years. Additionally, these Net Asset balances are supplemented by budgeted revenues as well as any inter-fund transfers. The total of these sources represents the ceiling, or maximum available resources from all sources. BARC is charged with reviewing and approving individual fund ceilings and Total All Funds ceiling presented in the row below.
