

Future Projects

Plans are underway to develop and present a webcast that will educate leadership on the charge of the ethics committee and how to improve communication between divisions and COPE. A side benefit of this project is to create a model for other ALA committees to efficiently and creatively on-board new leadership on its role within the ALA organization. In addition to program planning, the committee is investigating the feasibility of creating an Ethics toolkit to help libraries train staff and to archive COPE publications and programs for continual use.

In closing, the Committee on Professional Ethics thanks the unit liaisons and the OIF staff for their commitment, assistance, and hard work. In particular, we would like to thank Kristin Pekoll for her continued hard work and commitment to efficient time management.

Respectfully Submitted,
